Task #1 - Points: 1

Text: Fill in the below prompts

^COLLAPSE ^

#1) What concepts/topics were totally new to you?

Explanation (required)

Mention specific concepts/topics

PREVIEW RESPONSE

While I had previously learnt SQL, I was still unfamiliar with advanced queries. While there may be several queries, learning them all can take some time. The database management lesson was quite interesting to learn.

#2) What concepts/topics were you familiar with?

Explanation (required)

Mention specific concepts/topics

PREVIEW RESPONSE

I was somewhat familiar with database management, such as creating a new table. I also knew certain query basics, such "Select" and "Where".

#3) What topics do you still not understand?

Explanation (required)

At least a few reasonable sentences.

PREVIEW RESPONSE

I wouldn't say that I still have complete confidence in every topic. Having done some research and trying with some SQL coding, I can definitely commit to learning SQL inside and out.
