Instructions

^ COLLAPSE ^

- 1. Visit w3schools and go to the HTML Tutorial: https://my-learning.w3schools.com/tutorial/html
 - Introduction and Basics Lessons 1.1 1.7
 - 2. Formatting and Style Lessons 2.1-2.6, 2.8 2.22
 - 3. Links Lessons 4.1 4.3
 - Forms Lessons 10.1 10.6
- 2. Visit w3schools and go to the JavaScript Tutorial: https://my-learning.w3schools.com/tutorial/js
 - 1. Introduction Lessons 1.1 1.7
 - Variables Lessons 2.1 2.4
 - HTML DOM Lessons 22.1 22.14
- 3. Visit w3schools and go to the CSS Tutorial: https://my-learning.w3schools.com/tutorial/css
 - Introduction Lessons 1.1 1.6
 - 2. Links Lesson 11.1
 - Lists Lesson 12.1
 - 4. Selectors 16.1 16.5

Guide:

- 1. Make sure you're in the main branch locally and git pull origin main any pending changes
- Make a new branch per the recommended branch name below (git checkout -b ...)
- Fill in the items in the worksheet below (save as often as necessary)
- 4. Once finished, export the worksheet

- 5. Add the output file to any location of your choice in your repository folder6. Check that git sees it via git status
 - 7. If everything is good, continue to submit
 - 8. Track the file(s) via git add
 - 9. Commit the changes via git commit (don't forget the commit message)
 - 10. Push the changes to GitHub via git push (don't forget to refer to the proper branch)
 - Create a pull request from the homework related branch to main (i.e., main <- "homework branch")
 - 12. Open and complete the merge of the pull request (it should turn purple)
 - 13. Locally checkout main and pull the latest changes (to prepare for future work)
 - Take the same output file and upload it to Canvas

Reflection (2.5 pts.)

Task #1 - Points: 1

Text: Fill in the below prompts

#1) What concepts/topics

Explanation (required)

Mention specific concepts/topics

PREVIEW RESPONSE

I was completely new to HTML formatting and styling. I've previously coded in HTML, but now I'm modifying the layout and styling with various styles. Another topic that was new to me was the HTML DOM. Finally, I haven't learnt much CSS in the past, so this is also new topic for me.

#2) What concepts/topics

Explanation (required)

Mention specific concepts/topics

PREVIEW RESPONSE

I was already familiar with Java script and its basic ideas, such as variables and data types. I was also somewhat familiar with HTML, having previously created a basic website. #3) What topics do

Explanation (required)

At least a few reasonable sentences.

PREVIEW RESPONSE

I still don't feel fully confident with CSS, Java Script, and several HTML problems. I believe it will take a lot of practice before I have a hold on it.
